

C 409/B9 comb

INSTRUMENT MICROPHONE

Miniature condenser microphone that clamps on the instrument. Short gooseneck for precise alignment.

Room to move for horn players at last! Clamp the C 409 on the bell of your horn and forget about constantly checking the right working distance. A word of warning: A constant working distance means you'll have to watch your dynamic range – perfect results from the C 409 may require an initial learning phase.

The supplied battery power supply (with belt clip) provides a volume control.

STANDARD ACCESSORIES

- B 9 Battery power supply
- W 44 Windscreen

SPECIFICATIONS
